

Making your landscape rock!

Imagine someone came up with an easy way to select 'hardscaping' products – pavers, stones, rocks and so on, and then had all the expertise needed to help you make the right choices.

Thanks to an innovative new outdoor showroom opened by Patterned Concrete, that's exactly what you can have today.

It's a full-service design centre that has all of your options in one place. Everything, including impressed concrete, concrete pavers, natural stone and exposed aggregate, is on display, as well as waterfalls, landscape rocks, ornaments

and outdoor furniture.

You'll find that it's one of the largest outdoor design showrooms in the GTA.

You also can learn all you need to know about the materials on hand, thanks to the Patterned Concrete experts who are there to help you. With their advice, you'll find that the only limit to your outdoor living project is your imagination. 🌿
