

CREATING *beautiful* SKIN

Choosing a solution for hair removal and rejuvenating the appearance of the skin was once a confusing and difficult decision. Many methods and technologies promise the best results but most fall short. Elōs technology has changed all that. Simply put, Elōs is proven to be the safest, most effective and comfortable solution for superior results.

■ **For hair removal:** Elōs laser technology is the first to effectively remove hair of all colours – including white, grey, red and blonde. The process is a fast, gentle way to remove unwanted hair on all colours of skin, including tanned skin. The results are exceptional. As well, the innovative device used to remove the hair has a higher comfort level than any other laser technology available.

■ **For beautiful skin:** Elōs safely and comfortably treats rosacea, spider veins, skin imperfections caused by sun damage, age spots and uneven skin tones created by brown and red spots. All of these conditions, which can make the skin look older and less healthy, are no match for the power of Elōs technology. You can expect your skin to be smoother, clearer, even-toned and healthier-looking.

Does Elōs work for everyone? Yes. For hair removal, Elōs is a superior solution for removing hair of all colours on all skin types. And for beautiful skin, it is an effective treatment for most skin types. ✨
