# beautiful SKIN at the speed of light

**Treatment offers no downtime, no recovery period.**

FotoFacial RF treatments are full face, neck, hands or body treatments using Intense Pulsed Light and Radio Frequency (RF) energy combined in the same pulse. These gentle, no-downtime treatments are used to improve the cosmetic appearance of the face, neck or body.

The original FotoFacial procedure was co-developed by Dr. Patrick Bitter, Jr., a dermatologist, and Dr. R. Stephen Mulholland, a plastic surgeon, bringing together the best of aesthetic dermatologic skin care and cosmetic plastic surgery into one non-invasive procedure.

The FotoFacial procedure has increased in popularity and recognition to the point where it is now one of the most commonly

performed cosmetic procedures in North America. Drs. Bitter and Mulholland have trained more than 2,000 physician practices in the art of the FotoFacial and the procedure has been featured in *Allure*, *Cosmopolitan*, *In Style*, *Vogue*, *USA Today* and numerous television shows.

Many Hollywood stars and TV personalities rave about the FotoFacial and credit this procedure for the renewed health and vitality in their skin. The FotoFacial RF is the next generation in high-tech skin enhancement. ✨
