

SOUND ADVICE

Experts will help you keep up with audio and video trends.

As the home entertainment trend continues to lead consumers into previously untried territory, Trutone Electronics experts suggest you visit their store and view their fully furnished home theatre rooms. There you can experience a myriad of choice in audio and video electronics.

A household name in Mississauga since 1968, Trutone is at the forefront of the changes available in both product lines and client services.

Two decades ago, owners Bob Rabbito and Bill Doukas had a vision for the store's total redesign, inside and out. Since then, it has grown to 8,000 square

feet, and the pair is now in the process of adding a new location in Toronto.

Trutone Electronics has changed from simply a TV store into a home entertainment company. Its philosophy has always been to offer personalized service to the customer. Enlightening its clients and surpassing their expectations is Trutone's mission. 🍁

■ *For more information, contact Trutone Electronics, 980 Dundas St. E., Mississauga, 905-270-3440, or visit www.trutone-hometheatre.com. By the time you read this, a second Trutone store should be open at 3832 Bloor St. W. in Toronto.*
